About *Us*

Our philosophy comes to life through thoughtful execution

AT BLENDED AVENUE DESIGN STUDIO, WE DESIGN SPACES THAT ARE
LAYERED, TIMELESS, AND DEEPLY PERSONAL.

WE FOCUS ON FLOW, MATERIALITY, AND EMOTION — CREATING INTERIORS
THAT NOT ONLY LOOK BEAUTIFUL, BUT FEEL EFFORTLESS TO LIVE IN.

DESIGN WITH PURPOSE. DESIGN THAT LASTS

Project *01*

Dining area - 3d proposal

More than a dining space, this area was shaped around the experience of coming together.

Muted colours and natural textures create a calm backdrop, while rattan elements add warmth and familiarity.

The simplicity of the design encourages comfort, ease, and presence making the space feel inviting, balanced, and quietly alive

Project 02 Master bedroom - 3d proposal

Designed with care and restraint, this bedroom offers a gentle sense of calm. Natural materials and rattan details create warmth, while soft colours allow the space to breathe

It is a room meant for unwinding, reflecting, and feeling at ease—where comfort is subtle, and calm is deeply felt

Project 03

Retail Fashion store- 3d
proposal concept

At our studio, sustainability is a design language

This retail façade is shaped by the principles of reduce, reuse, and recycle, where mindful material choices replace excess, and existing elements are reimaged with purpose

By reusing textures, recycling materials, and designing with restraint, we create spaces that are visually strong, environmentally responsible, and timeless in character

For us, good design is not just about how a space looks, but about the values it represents

Project 04

Ocean breeze Apartment -Negembo
Studio Apartment

This studio apartment was designed to feel open, calm, and effortlessly functional, where every corner serves a purpose without compromising warmth or style. From layered textures to smart spatial planning, the design transforms compact living into a refined everyday experience.

A home that proves great design isn't about size, it's about how a space makes you feel.

Project 05

Sundown villa
3d proposal

This boutique hotel bedroom is a study in balance—where natural textures, warm wood tones, and soft light come together to create a quietly immersive retreat. Thoughtfully layered materials and handcrafted details ground the space, allowing comfort and calm to take center stage

Designed to slow the senses and elevate the stay, this room reflects a philosophy that blends function, emotion, and timeless design into every experience

Project 11

Office reception and Conference area

Every meeting doesn't need more time—just better focus. This thoughtfully designed workspace helps eliminate distractions and supports clear thinking, allowing teams to spend less time resetting and more time creating solutions that matter.

This isn't just a place to sit and talk—it's a space designed to support progress. From brainstorming sessions to strategic planning, the environment adapts to the energy of the people inside it, helping ideas evolve into action.

Project 12

Trizen apartment - 3 BR
Union Place

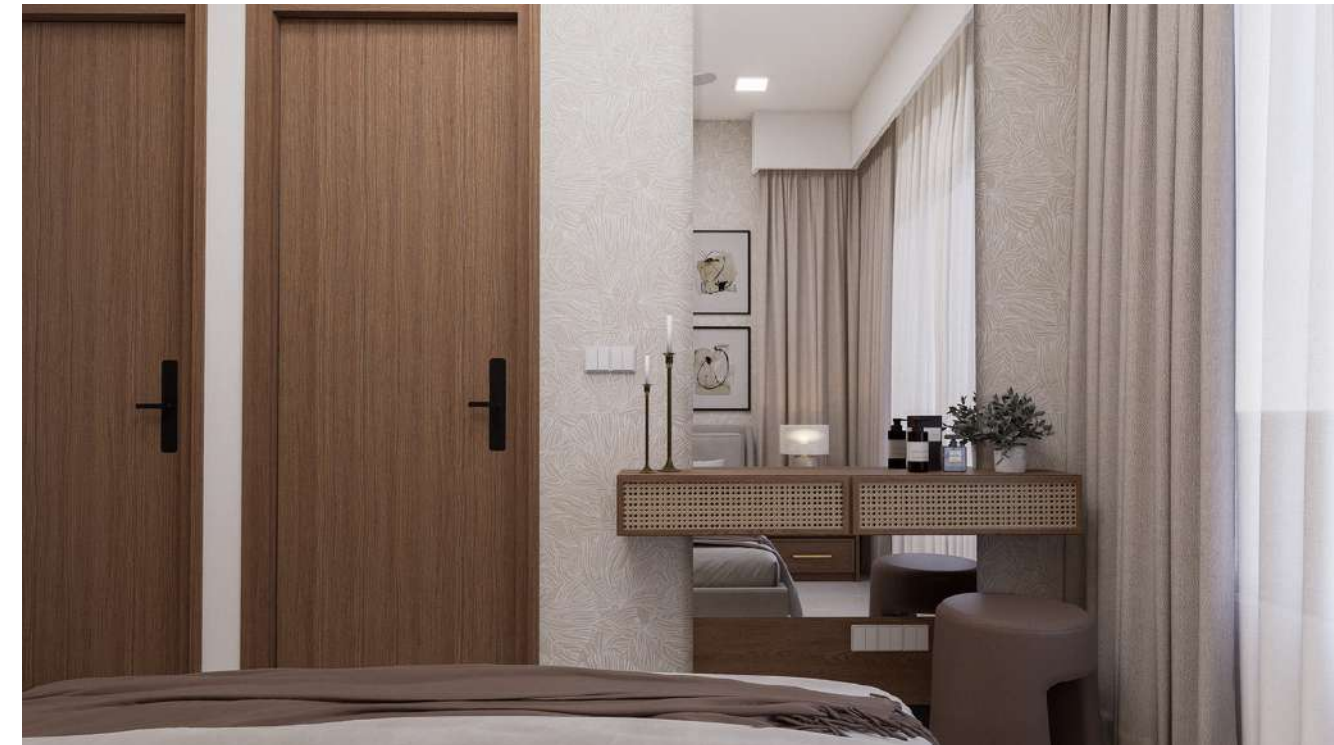

For this Tri-Zen apartment in Union Place, we shaped a calm modern interior where soft tones, subtle textures, and thoughtful details come together to create a space that feels peaceful from the moment you walk in.

It's a home designed to slow you down, soften the day, and bring comfort into everyday living.

Quiet luxury. Modern calm. A space made to be felt.

Project 13

Office Space Trident Cooperation - Union Place

For Trident Corporation's office in Union Place, we created a reception and lounge area that blends professionalism, comfort, and brand identity into one refined space. From the bold reception counter to the calming seating zone, every detail was designed to welcome, represent, and elevate the workplace experience.
